Summary

Detail-oriented professional transitioning into software engineering with a proven ability to diagnose and resolve complex technical systems. Adept at applying analytical thinking and problem-solving skills to overcome coding challenges and deliver effective solutions. Experienced in collaborating within teams and communicating technical concepts clearly. Proficient in modern web development tools and frameworks, with a commitment to ongoing professional growth in computer science.

SKILLS

- Technical Languages: JavaScript, TypeScript, HTML, CSS, Python
- Frameworks & Libraries: Node.js, Express.js, React
- Tools & Platforms: GitHub, VS Code, Postman, Microsoft Office 365

PROJECTS

1. TomoPudgy | <https://github.com/anthonymoon2/TomoPudgy> | <https://tomopudgy.onrender.com/>
 - Description: Our teams TamaPudgy web application is a full-stack MERN (MongoDB, Express, React, Node.js) application providing an intuitive platform for users that is designed to help their track their daily food intake and calorie consumption
 - Skills Utilized: API Integration
 - Role: Back-End Developer
 - Tools: Typescript, Node.js, Express.js, MongoDB, API, Apollo Server
2. Find-A-Programmer | <https://github.com/joshcord99/Find-A-Programmer> | <https://find-a-programmer.onrender.com/>
 - Description: Connects to the GitHub API to allow employers to search for candidates, view their profiles, and save potential candidates for future consideration.
 - Skills Utilized: API Integration
 - Role: Developer
 - Tools: Typescript, React, HTML, CSS

EMPLOYMENT HISTORY

Diesel Technician | FedEx Freight

May 2023 - August 2024 | Gardena, CA

- Skills Transferred: Problem-Solving, Team Collaboration, Attention to Detail, Training.
- Achievements: Successfully trained two new team members, ensuring they quickly adapted to workflows and procedures.
- Technologies used: Cummins Insite diagnostic software for Cummins engines.
- Conducted preventative maintenance and diagnostics on equipment to ensure operational efficiency.
- Collaborated with team members to enhance equipment safety and streamline repair processes.
- Documented all maintenance tasks meticulously, ensuring accuracy and compliance with company standards.

EDUCATION

- **Full Stack Web Development Boot Camp Certificate**
Universal California of Irvine | Irvine, CA
- **Associate Degree in Computer Science** (In Progress)
Long Beach City College | Long Beach, CA
- **Associate of Occupational Studies Degree in Automotive, Diesel and Industrial Technology**
Universal Technical Institute | Long Beach, CA
